- Approachable, entertaining.
- Knows how to hold our attention.
- Accessability.
- Great passion. Easy going.
- Love design and able to give good feedback. Nice and friendly.
- The instructor is overall helpful, kind and his content is informative.
- Talks loud, clear. Being understandable in the materials. Gives helpful comments on our projects.
- Provide very constructive feedback on projects.
- Andrew makes things interesting, I applaud his efforts to maintain enthusiasm in such an apathetic class.
- Best instructor I ever seen! Love your class so much!
- Instructor's feedback towards student's work were good & informative.

SIAT Course & Instructor Evaluation Remarks

- Friendly and approachable.
- Due to the strike, not much could be said but the in-lab critiques were very informative.
- Enthusiastic.
- Very helpful.
- Loved Andrew's glasses.
- Very interesting & engaging. Lectures are enjoyable.
- Andrew is a wonderful professor, he is engaged in lectures and attends many of our labs. He is constructive in his feedback and makes lectures enjoyable. I love his bowties.
- Andrew is a very good instructor, I learned a lot in his class.
- He is easygoing I really enjoy his lectures and lecture slides.
- He's a very nice person.
- Andrew is a great instructor for IAT 102.
- He has a sense of humour so he doesn't make lecture boring at all. Andrew is the best prof I've ever met!!
- I preferred Andrew's feedback on my work far over my TAs much clearer and informative.
- Makes lectures fun.
- Very inthusiastic.
- Excellent professor, kept lectures engaging and interesting.
- Super interesting, loved the lectures! Very enjoyable class overall! ☺
- Very enthusiastic.
- Good prof ☺. Made IAT fun!

SIAT Course & Instructor Evaluation Remarks

Weakest:
- Unconsistent marking scheme.
- A bit clearer on assignment briefs.
- "Yay".
- Not very engaging.
- Need more office hours.
- Can be more confident of himself.
- Instructor should explain projects and assignments a little bit more.
- Quite awkward.
- Would've liked more constructive criticism on my work.
- Should be more involved in labs.
- Not enough feedback at times.
- Covers materials too fast.
- Sometimes materials come too much all at one so it is hard to follow.
- Assignments are the strongest feature.
- Lectures probably aren't as useful as they could be, but that's more of an issue with the course itself.

Question 2: What do you consider to be the strongest and weakest features of the course?

Strongest:
- Fun, get to work with computers, although a lot of work.
- The slides are interesting in lectures.
- Projects + assignments were relevant to course but assignments involved more work than there needed to bo.
- Very informative.
- Lots of support from teachers & TA.
- Good for forcing software onto students.
- Introduction to graphic design.
- Provides enough info.
- Labs are very good.

Weakest:
- A lot of material to cover.
- Trouble hearing the teacher during lecture.
- Easy to slack off.
- Some assignments need to be explained in further detail and in person not on

SIAT Course & Instructor Evaluation Remarks

some paper online. Person = first, paper = second.
- Too much course assignments, too much work for weekly assignments.
- At times not clear information regarding assignments.
- For a graphic design class, it seemed like a large portion of marks and work were focused on presentations.
- Getting an A was hard & not explained how to get it. The readings weren't helpful.
- I didn't like that buying an iClicker was necessary. I still don't have one.
- Too much work, especially lab activities, waste time.
- The lack of time for the last two projects created unnessecary stress as we had extra time at the end of the semester.
- The workload feels like it is too much for a 100-level course. The expectations from this course is suffocating.
- TA & prof contradict each other.
- Work load a bit much.
- Lectures and labs weren't super useful; workshopping assignments more would be a better use of time.
- Just feel there are too many things to do.
- Lots of work, very little time.

Question 3: Any other comments or suggestions?

- Nope.
- More videos & jokes.
- Sadly the TA (Justin) is not helpful at all. We tried to approach him for coments on our work, all he say is 'it's all up to you' and nothing else.
- First project should be individual so that all students can become familiar with the software, and the work can be evenly distributed. If projects are to be graded collectively students should have access to all T.A.s for feedback during office hours.
- During the lectures, a microphone would be helpful to those either sitting in the back or have noisy neighbors.
- Why Graphic design doesn't Intergred with drawing?
- The concepts have to be reinforced in the lab. Focus on creating projects through other mediums.
- Probably could have devoted a little time to the making of slides so people at least don't do stuff in letter format.

SIAT Course & Instructor Evaluation Remarks

- The neo Armstrong cannon.
- Bananers.
- I'm really interesting in this subject, this is a course I would definitely suggest to take! <3 ☺
- Helvetica is universal, that is why everyone uses it.
- Clarity of lab work (eg. Deliverables + scheduling).
- Should reduce the amount of work every week.
- Good enough.
- All is good. All is fine.
- Good course overall.
